

### **Nearshore FLNG Solution for Transition Phase**

**Antonio B.H. YOON / Director | Samsung Heavy Industries**

Energy Transition towards reducing carbon emission is an aligned global thought today. Gas or LNG is playing an important role in such transition accelerated by global supply issue, especially in Europe. Nearshore FLNG is a fast & easy proven solution that can assist exporting gas with minimal environmental distortions.

This presentation introduces Samsung Heavy Industries(SHI)'s FLNG solution for such needs.
